

MAKING ALCOHOL MONITORING EASY & ACCESSIBLE FOR EVERYONE

**Secure, Affordable, & Accurate Alcohol Testing
With Client Identity Verified on Every Test.**

RAMP is CourtFact's customizable **Remote Alcohol Monitoring Platform** that makes voluntary and court-mandated alcohol testing easy, affordable, and accessible to all clients and participants. Utilizing a small testing device enclosed in a secure, tamperproof case, monitored individuals can provide tests discreetly that will simultaneously **verify the individual** as well as the device used which eliminates many circumvention attempts that are common in unsupervised breath alcohol testing protocols.

By pairing the individual's personal smartphone with the CourtFact Client Mobile application, or using one of CourtFact's Connect secure smartphones, the **testing is quick, efficient, and accurate** allowing clients and participants to conveniently fulfill testing requirements and stay in compliance.

FEATURES INCLUDE:

- Small, discreet, & portable for easily completing tests
- Fixed, random, & on-demand testing protocols
- Tamperproof case with unique identifying code
- Facial ID video taken through the entire testing process
- Customizable agency settings for all testing requirements
- Multiple standard reports to view and access test data
