

COURTFACT®

TOOLS THAT INSPIRE SUCCESS

Go Beyond the Facility. **One Connected System.**

Today's Sheriff's Offices manage more than secure facilities.

CourtFact brings every program and each operational component together in one secure platform built exclusively for criminal justice.

One Platform.

From **CUSTODY** to **COMMUNITY.**

courtfact.com/sheriffs

Bring the Entire **OPERATION** Into View.

FACILITY OPERATIONS

Manage housing, classification, movement, work release, property, visitation, incidents, and other daily facility operations from one centralized system.

FINANCIAL MANAGEMENT

Track program fees, participant obligations, payments, balances, and financial activity alongside the programs and services generating those costs.

ONE CONNECTED RECORD

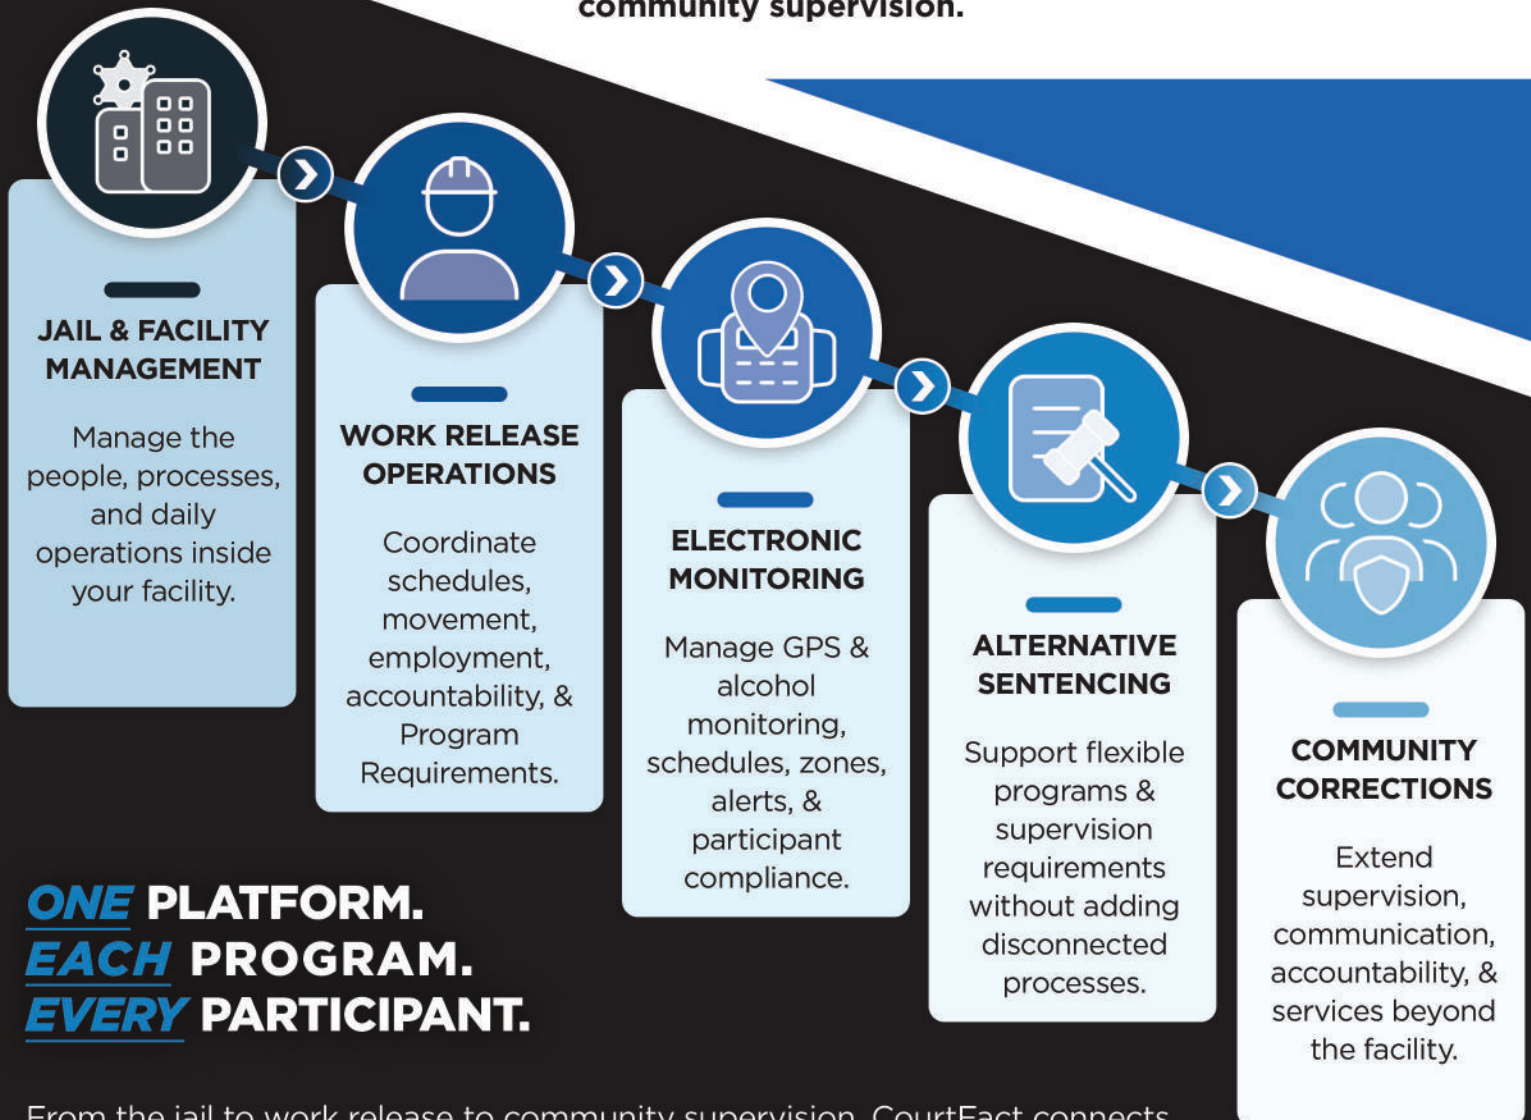

Give authorized staff across programs access to the information they need without recreating records or searching across disconnected systems.

ONE PARTICIPANT. ONE CONNECTED JOURNEY.

A participant may enter your facility, move into work release, transition to electronic monitoring, and continue under community-based supervision.

But the **information needed to manage that participant** is often spread across different systems, vendors, spreadsheets, and departments.

CourtFact connects the entire journey, giving your staff one operational platform from intake through release and community supervision.

ONE PLATFORM.
EACH PROGRAM.
EVERY PARTICIPANT.

From the jail to work release to community supervision, CourtFact connects the people, programs, and information Sheriff's Offices depend on every day.
